100%

1. Read the original source on the left and the student's writing on the right and decide if the student plagiarized or not.

1 / 1 point

Original Source	Student's Writing
<p>This can be seen around the world. The World Health Organization and many nations have issued dietary guidelines to address a global epidemic of noncommunicable diseases that is far from limited to high-income countries. Global diets have converged such that the same principles for dietary change apply to some extent in all countries. The increase in noncommunicable diseases in low- and middle-income countries is more rapid, and has worse consequences than in high-income countries, according to the Council on Foreign Relations. Moreover, the challenge of combating noncommunicable diseases along with under-nutrition is substantially greater in these countries.</p> <p>Kumanyika, Shiriki. "Aligning Policies on Nutrition, Food, Environment for</p>	<p>Many health agencies around the world are busy issuing dietary guidelines to address a global epidemic of non-communicable diseases, such as heart disease (Kumanyika). This is important because developing countries are having an increase in non-communicable diseases recently.</p>

<p>On the small islands, the main centers are accessible to most stayover tourists. These centers range in metropolitan population from about five thousand in Plymouth to almost one hundred thousand in Bridgetown and in Fort-de-France, Martinique. They possess a broad array of functions and facilities that is disproportionate to urban size. Nevertheless, the overall volume of activity and the physical space in which it occurs are constrained. The potential for tourist-local interaction is enhanced, and tourism assumes a high profile both physically and economically, even when the actual volume of the visitation is not</p>	<p>Tourism is one way that small islands can survive. David Weaver indicates that the number of ports in the Caribbean shows the importance of cruise ships in that area. He explains that these cruise ships make it possible for a large amount of tourism in the area (Weaver).</p>

 **Correct**

The first sentence is the student's own idea. Then he properly cites the second and third sentences using attribution and parenthetical citations.
